

1.53 Trivex®

Finished Aspheric Single Vision

Seiko Optical Products Ultra 1.53 and AS 1.53 aspheric finished single vision lenses are made from Trivex®, a unique lightweight material that offers wearers a combination of superior optics and impact resistance.

Ultra 1.53 lenses are available with Surpass AR, which includes a super hydrophobic

and anti-static topcoat that repels water, oil and grime, and prevents deterioration due to UV, humidity and normal temperature fluctuations. Surpass AR lenses are extraordinarily easy to clean, and with a new anti-static formulation, lenses stay clean longer. AS 1.53 lenses are available hardcoated or with standard anti-reflective coating.

1.53 Trivex® Stock Lenses

Ultra 1.53 AS AR • Aspheric with Surpass® Anti-Reflective Coating

AS 1.53 AR • Aspheric with Anti-Reflective Coating

AS 1.53 HC • Aspheric with Hardcoat

Specifications

Material: Trivex®

Design: Aspheric

Refractive Index: 1.53

Specific Gravity: 1.11 g/cm³

UV Cutoff: 380nm

Abbe Value: 45 (Ultra 1.53 AS AR)
43 (AS 1.53 HC & AR)

Coatings

Ultra 1.53 AS AR: Multi-layer Surpass® AR with Super Hydrophobic & Anti-Static Topcoat

AS 1.53 AR: Standard Anti-Reflective Coating

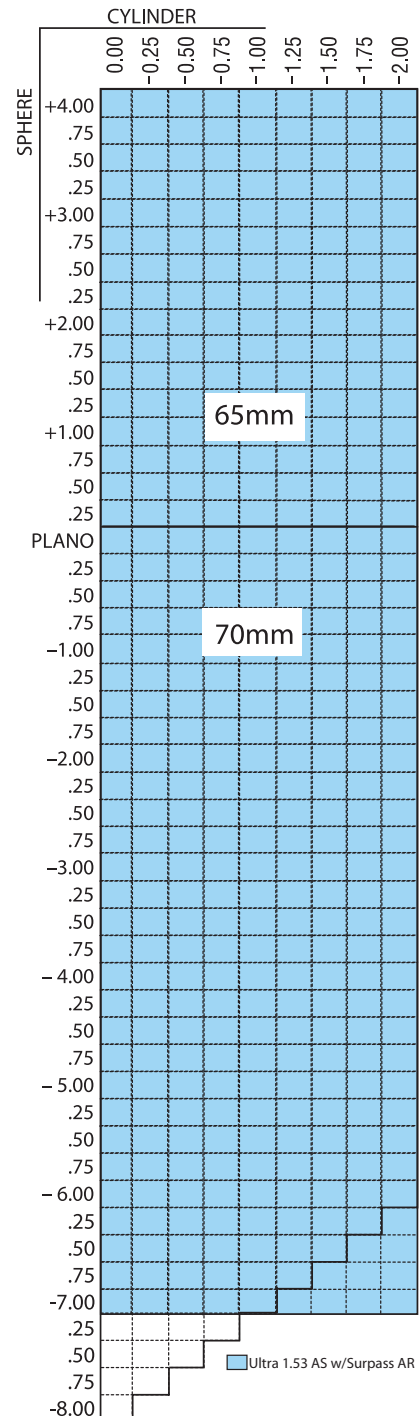

AS 1.53 HC: Hardcoat (non-tintable)

Surpass® AR Benefits

- Easy to keep clean with anti-static formulation and super hydrophobic topcoat
- Cuts reflection from computer and TV screens
- Toughest scratch resistance
- Helps prevent distorting glare
